

MERCY HEALTH PARTNERS

**MERCY HEALTH PARTNERS' UPDATES
VISITATION POLICY**

With the recent decline in flu-like symptoms in the area, Mercy Health Partners (MHP) is lifting the visitation ban for all areas of the hospital, all campuses. We will continue to monitor this situation during the flu season and will adjust our policy accordingly as we work to protect the health of our visitors, patients, staff and physicians.

Should visitors choose to come to the hospital, we ask that they are healthy and sanitize their hands before and during their time at Mercy Health Partners.
